Mega Industries Obtains ISO 9001:2008 Certification

Gorham, Me., October 31, 2010 – Mega Industries, LLC a manufacturer of Waveguide, Flexible Waveguide, Coaxial Transmission Line, Ultra High Vacuum and RF Solutions underwent a successful Quality Audit and is now ISO 9001:2008 registered. Mega Industries is expanding its commitment to provide consistent and exceptional quality in all manufacturing processes.

The certificate of registration was administered by Perry Johnson Registrars and covers the design, manufacture, and support of Mega Industries' full line of RF Solutions and systems. The ISO 9001:2008 registration places a strong focus on top level management involvement in the quality process, as well as customer satisfaction and continuous improvement.

"The dedication of the Mega Industries employees in obtaining this level of quality within our processes demonstrates their commitment to continued delivery of high quality RF solutions" commented Peter Matthews CEO of Mega Industries, LLC. "This achievement is a step forward in providing total customer satisfaction."

Mega Industries will maintain this certification with yearly surveillance audits as well as reassessment audits by Perry Johnson Registrars as well as customer surveys to ensure that products and business processes continue to improve.

Mega Industries, LLC (www.megaind.com) is a privately held Maine company that has been in operation since 1989. Mega manufactures Coax, Waveguide, Flexible Waveguide and their associated components. These allow Scientists and Engineers to create high power RF Systems for research, manufacturing and FM Broadcast systems. Mega operates from a 30,000 square foot facility that was specifically designed to accommodate the manufacturing requirements for these specialized devices.
