## Mega Industries, LLC – Giving Angels Wings of Happiness During The Holiday Season

GORHAM, Maine (December, 2011) – Mega Industries, LLC, (An Anania & Associates Company) a world leader in high power RF equipment manufacturing, shines brightly with employee generosity once again during this Holiday Season. Employees in the Gorham facility donated money to adopt 13 Angels from The Salvation Army Angel Giving Tree. These local children will be glowing brightly with holiday cheer during Christmas time with a few more gifts underneath the Christmas tree.

During a company-wide Christmas party held at Keeley's Banquet Center in Portland, ME, a framed certificate was presented to Mega CEO, Peter Matthews and Anania & Associates President, Peter V. Anania as a gift from their employees at Mega Industries. Peter Matthews comments, "With thanks and gratitude toward our valued employees, we are very proud to accept this thoughtful gift given with the true spirit of the season."

Mega Industries, LLC ([www.megaind.com](http://www.megaind.com)) is a privately held Maine company that has celebrated its 22nd year in business in 2011. Mega manufactures Coax, Waveguide, Flexible waveguide and their associated components. These allow Scientists and Engineers to create high power RF Systems for research, manufacturing and FM Broadcast systems. Mega operates from a 30,000 square foot facility that was specifically designed to accommodate the manufacturing requirements for these specialized devices.
