MEGA Industries, LLC – Announces New Distributor for Sweden, Norway, Finland and Denmark: Compomill Nordic Components AB

GORHAM, Maine (December, 2011) – Mega Industries, LLC, a world leader in high power RF equipment manufacturing, is very proud to announce the appointment of Compomill Nordic Components AB as the exclusive distributor in Sweden, Norway, Finland and Denmark.

Compomill President, Torbjörn Carlsson comments, “It is a great honor for Compomill organization to be appointed as Representative for Mega Industries for the Scandinavian countries plus the Baltic States. Mega Industries product range is a professional asset to our portfolio.”

Mega Sales Manager, William Sanborn adds, “We are excited to partner with the team at Compomill – they are a recognized and trusted organization in their market and I am sure they will open doors for us. Our customers can now take advantage of faster response times and strong local support so important to remaining competitive.”

Mega Industries, LLC (www.megaind.com) a privately held Maine company, celebrates its 23rd year in business in 2012. Mega manufactures Rigid waveguide, Ultra High Vacuum waveguide, Semi-Flexible waveguide, Coaxial Transmission Line and their associated components. These allow Scientists and Engineers to create high power RF Systems for research, manufacturing and FM Broadcast systems. Mega operates from a 30,000 square foot facility specifically designed to accommodate the manufacturing requirements for these specialized devices.
