MEGA Industries LLC Delivers a 3 to 1 Combiner High Power – High Vacuum

GORHAM, Maine – Mega Industries, LLC a world leader in high power RF equipment manufacturing, has announced the completion of a WR650 Reduced Height Combiner.

This reduced height WR650 Combiner was designed and manufactured for a demanding Application where Precision Phase Matching, High Vacuum levels (10⁻⁶Torr) and High Power levels (>1 Gigawatt) were required. Mega Industries met this challenge and delivered a device that met all of these requirements and kept the customer on schedule.

Mega Industries, LLC (www.megaind.com) is a privately held Maine company that has been in operation since 1989. Mega manufactures Coax, Waveguide, Flexible Waveguide and their associated components. These allow Scientists and Engineers to create high power RF Systems for research, manufacturing broadcast systems. Mega operated from a 30,000 square foot facility that was specifically designed to accommodate the manufacturing requirements for these specialized devices.
