Mega Industries WR112 FXR Unfinned Waveguide Dummy Load is a rugged high power unit designed to satisfy minimum cost and weight objectives. These load elements are in direct contact with the waveguide walls for optimum heat transfer and can withstand extremely high temperature, temperature gradients and thermal shocks. Designs to meet special requirements for bandwidth, sizes, flanges, etc. are available upon request.

Model: WE-0050

| | |
|-----------------------|-----------------|
| Frequency Range: | 7.05 - 10.0 GHz |
| Independent W Average | 300 |
| Independent kW Peak: | 1,750 |
| Combined W Average: | 175 |
| Combined kW Peak | 750 |
| VSWR Max.: | 1.10 |
| Test Pressure | 35 psig |
