

Length:	6.7 in.
Width:	2.8 in.
Height:	2.8 in.
Weight:	1.4 lbs.

Mega Industries WR90 FXR Super High Power Load is designed to offer superior performance that exceeds that offered by the standard military DA loads. Improved fin location, slight physical alterations and other enhancements make this increase possible. This load employs transverse cooling fins and high temperature refractory load elements that are designed to conform to the rigorous requirements of demanding environments with high vibration and wide temperature swings. Forced air cooling is necessary to reach the highest levels listed.

Model: WG-0055

Frequency Range:	8.20 - 12.40 GHz
Absolute Max Independent Power Rating (W Average):	650
Peak @ 45 psig (kW)	1,750
Typical Combined Power Rating (W Average):	500
Peak @ 30 psig (kW)	350
VSWR Max.:	1.10
Test Pressure	35 psig
