

Mega Industries WR2300 Transitions to Coaxial are manufactured to precise tolerances. For laboratory testing or other low power applications, we recommend “Probe type” transitions to type “N” coaxial line; while our low VSWR “cross-bar” design provides optimum electrical performance for high power applications.

A	23.00 inches
B	11.50 inches
C	0.62 inches
D	15.125 inches
E	26.63 inches
F	0.20 inches
L	18 inches
Wall Thickness	0.190 inches
Max Pressure	0.25 PSIG
