

Shunt Tee Switch

Mega Industries WR430 Waveguide Switches are available in a variety of configurations, both manual and motorized operation. This line includes (1) waveguide shutters for personnel protection in multiple transmitter applications, (2) three-port patch link assemblies for infrequent, preplanned SPDT operations, (3) the conventional “T” configuration, for extremely high power use or where very high port isolation is required and (4) E-plane rotary transfer configuration for stand-by transmitters or matrix building elements.

Model: 393200000

Shutter Switch

E-Plane Rotary Switch

Frequency	1.70 - 2.60 GHz
Material	Aluminum 6061-T6 or other
Types Offered	Manual or Motorized
Styles	Shutter, T-Style, Y-Style, Rotary
Configurations	3-Port, 4-Port
Plane	E-Plane, H-Plane
Flange Options	CPRF, CPRG, CPRF/CPRG or other
